

Alternative Bearers for Rail

AB4Rail meetings and communication activities

Franco Mazzenga

(Project Coordinator – Radiolabs)

Kick off meeting

4^h February 2021

Co-funded by the Horizon 2020 programme
of the European Union

This project has received funding from the Shift2Rail Joint Undertaking (JU) under grant agreement No 101014517. The JU receives support from the European Union's Horizon 2020 research and innovation programme and the Shift2Rail JU members other than the Union.

- **Project meetings**

- Periodic internal meetings between partners – 1 meeting per month
- Periodic meetings with CoLa partners – 1^o Monday of every month
 - next meeting scheduled 1^o march 2021
- Unplanned meetings based on specific needs of the projects

- **Communication activities**

- Website of the AB4Rail project (www.ab4rail.eu) – **the website is on**
 - to publicly update the progress of the activities and to make available the relevant achieved results (publication of public deliverables).
- Create Social Media accounts (e.g. Facebook, LinkedIn, Twitter) with possibility to disseminate the results through Social Media.
- Periodic newsletters (to be distributed on M12, M18 and M24),
 - leaflets and press releases illustrating AB4Rail objectives and updating on results of activities, to be published on the AB4Rail website and other relevant media;
- Organisation of two workshops at M12 and M18 (organized by RDL)
 - to deliver intermediate outputs of the project. This also offers a networking opportunity where all stakeholders can exchange and share knowledge
- Final conference organised at the official closure of the project
 - to deliver the outcomes of the research work, and promote a discussion with all the experts involved in the project;

- Thanks to all participants to KOM and to all the speakers from ERA, Shift2Rail, X2Rail5, Radiolabs and Università Guglielmo Marconi
- Indications emerged by T. Chatelet speech from ERA
 1. Transfer of results to the team working on the new Technical Specifications for Interoperability (TSI) specifications
 2. Contribution to FRMCS development
 3. Innovation is important
 4. Satellite in railway and ETSI activities
 5. Need to educate Rail operators (dissemination is important)
 6. Cybersecurity is an important aspect
- Recommendation from ERA, S2R and X2Rail5
- Collaboration of AB4Rail with other projects is of great importance so to align our activities with the needs of ACS developing X2Rail5 community
 - Update ACS system specifications
 - Update the Guideline of Technology
 - Cola agreement -> periodical reports every first Monday of the month
- Look at the activities of FRMCS → the interplay between ACS and FRMCS is of great importance

*Thank you for your attention
&
participation to the*

Kick Off Meeting of AB4Rail !

Have a good lunch !!
